Redmond, WA | uliana.a.topilina@gmail.com

LinkedIn: [linkedin.com/in/uliana-topilina](https://www.linkedin.com/in/uliana-topilina) | GitHub: <https://github.com/ulianatop>

Software Engineering student focused on full-stack web development, with hands-on experience in JavaScript, Node.js, SQL, REST APIs, and database design. Strong problem-solving, communication, and attention-to-detail skills developed through software projects and previous healthcare experience.

EDUCATION

Lake Washington Institute of Technology — Kirkland, WA

Bachelor of Applied Science, Computing and Software Development | Expected Jun 2027

Relevant Coursework: Web Application Development, Database Modeling & Design, Security Foundations

Lake Washington Institute of Technology — Kirkland, WA

Associate Degree, Computing and Software Development | Jun 2025

GPA: 3.91 | Degree Honors: Summa Cum Laude | Phi Theta Kappa Honor Society

Relevant Coursework: Algorithms & Data Structures, JavaScript, HTML/CSS, SQL, Java Programming

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL

Frameworks: Node.js

Tools/Technologies: Git, GitHub, Jira, VS Code, REST APIs, HTML/CSS

Databases: MySQL

PROJECTS

Student Attendance Tracker Web App | Team Coursework Project | Apr 2026 – Present

- Collaborating in a 6-person team to design and build a full-stack web app for Montessori School with about 100-150 students. The app helps authorized adults check students in and out using QR codes or securely stored 4-digit codes.
- Planned stack includes JavaScript, React.js, Node.js, Express.js, and MySQL. Contributions so far include database design, SQL database setup, documentation, and team collaboration using Jira and GitHub.

Expense Tracker Web App | Coursework Project

- Developed features for a full-stack expense tracker using JavaScript, Node.js, MySQL, HTML/CSS, and Vitest, including multiple-user support, registration/login, password hashing with bcrypt, JWT authentication, and user-specific expenses and categories.
- Implemented client-side pages, server API handlers, database logic, authentication flow, and unit tests.

Book Search Mobile App | Coursework Project

- Developed an Android book search app that lets users search by title or author and view book details.
- Used Java, Android Studio, and Retrofit to fetch book data from the Open Library API, display book covers and results, and handle loading states, empty searches, and no-result messages.

EXPERIENCE

Self-Employed Infant & Child Wellness Provider — Rostov-on-Don, Russia | Jan 2019 – Nov 2021

- Provided wellness-focused support for approximately 8-12 children per day, including infants and young children, through movement exercises, infant massage techniques, water comfort, and basic swimming activities.
- Communicated with parents, managed appointments, and adjusted services based on each child's needs.

Retail Pharmacist — Pharmacy, Rostov-on-Don, Russia | Sep 2017 – Nov 2018

- Assisted up to 100 customers per day with prescription and over-the-counter medication purchases, provided basic medication guidance, and helped organize medications and pharmacy inventory.
- Developed strong patient communication, customer service, and problem-solving skills in a healthcare environment.

Compounding Pharmacist — Government Pharmacy, Rostov-on-Don, Russia | Dec 2015 – Sep 2017

- Prepared compounded medications in batches of approximately 30-50 units daily, as well as individual prescription-based preparations, including suppositories, ointments, and other customized preparations.
- Measured, mixed, packaged, and labeled medications according to pharmacy procedures and safety standards.
